Good Fartune Smiles on Mon-Worriers

HERE'S A STORY about a couple of people who started out in life as Non-worriers. It wasn't that they had conquered worry, they never had worried, says Mrs. Alan Longacre, Richmond, California. Their marriage was happy. Good fortune came to them with her choicest gifts.

It looked for a time as if they would have no children, but they didn't worry about that. Within five years came three lovely children. They had everything, but what was more important they realized it, and didn't fret

Then; their house burned down with all their terronal belongings,

their lives away over petty matters.

But they took advantage of having no home for George Allen to go tack to school and get his degree in chemical engineering, thus turning that sour lemon into lemon-

Suddenly their little three-year-old son de-veloped Laukemia. The doctors gave him one week to three months life expectancy.

But the doctors at a well-known medical center asked to hospitalize hum for three weeks for an important experiment which might cave him. They consented and for weeks after he left the hospital they took him to the hospital daily for treatments. This meant rising at cix in the morning and working until after mid-night. But hope was enshrined in their hearts.

Eccepthing went well for six months, then the doctor said Mre Allen's heart would not continue to stand the pace she was

Their budget was already so overburdened that there was nothing to be opplied to even medicing help.

So she lad to handle her relexation herself. She spent two hours on the bus to and from the heap'tal. During that time she learned to absolutely relax, let her mind go blank.

Today the can carry mit for stally program with my strain ore established the court is a market of the term to a waite they th has heavy at the medical center and is responding wonderfully 数数数约约约约

ONE OF THE MOST OFTEN QUOTED comments in music business is the statement by Tony Martin that, "It takes more than a good voice to make a star" . . .

on the surface, but Tony's statement · · · His press agent in support of Tany's assertion, points out that the singer is actually one of the most talented pérformers in show

This sounds logical

business - - - He is known as the "King of the Might Club Singers," racking up record grosses wherever he

Tony is an accomplished actor (il says here in tine print) and recordwise he was last year's retall record dealer's choice as the nation's number one seller - - - His radio show for NBC has a topbrackel Nielsen rating . . . Even on records, Tony is constantly try. ing innovations - - - He was the first major male recording artist to make ducts with girl singers (this is highly debatable, but we'll lei it pass since there is no record file on hand at the moment.)

In the current crop of boy-girl ducts his lastest with Dinah Shore, "A Penny a Klas," Is far and away the best . . . Tony's "I Said My Pajamas" was the top song in the country last year at this time and also employed the duct technique . . . All this goes to prove Tony's contention that if takes "more than s good voice to make a star" - . . All this was dreamed up by a typical enterprising press agent looking for a new "angle" for his client . . . There are just a few questions we'd like to submit to this press agent regarding the above: just where would Tony be in the movie, radio and recording | the illness o, her sister, Mra Howfields without a voice? Did he have | ard Judkins to pass a dramatic audition before he got his radio spot? And doesn't any vocalist attain showmanship with experience?

In contrast we give you CBS's Perry Come, who has starred brightly on radio and television for some years and also made a few t ctures of note . . . He's handsome.

Our ExperienceYour Benefit

Every piece of printed matter produced in our shop leaves us better able to meet the requirements of your next order for business forms or stationery or any of a hundred exacting needs.

Experience plus new ideas are likely to work for your advantage in creating printed things especially for your purpose, frequently at a cost surprisingly low. And our workmanship must please our most discriminating customers.

Although our stock is larger than usual, both in volume and variety, it is well to anticipate your needs whenever possible as delays in production and shipment of materials are likely to occur.

Just Telephone One Hundred when printing is needed. If we can't do it as it should be, or get it for you economically, we will tell you.

"ITS YOUR INFLATION"

Life magazine recently published one of the best editorials on inflation which has yet appeared. It dealt with the Administration's "cheap money" policy which has made higher prices and depreciated currency inevitable. At the end it said, "The vast maze of Federal Alice Rounds and the Wilson lending agencies which together make the U.S. Covernment the biggest source of 'private' credit lunch program for the week of are going right ahead with loan March 5th were: Malsie Murch, policies which also stimulate in Florence Brown, Rachel Hutchison, flation and further shave your dol- Elizabeth Foster and Mary Fillelar. Largely due to high-level political blandishments, millions of people have placed a wholly unjustified faith in the power of arbitrary controle to stop price rises, and even to roll prices back to the levels of the first of the year, or pre-Korea or some oher arbitrary date At the same time, millions of people have been led to place the blame as ours has and that his costs are er with whom we do our day-to-day trading despite the obvious fact that he must gay the going wholecale rate for his goods, and that his form on angle band on our
